

Making clean energy accessible and usable for everyone – that’s the vision of ison. Together, we are scaling a purpose-driven business company to tackle the greatest challenge of our generation - climate change. We create and develop an innovative digital ecosystem with scalable software components that adapts the massively changing needs of customers and an energy market in disruption. We are looking for a

(Senior) Frontend Developer (gn)

with experience and hands-on mentality to tackle the challenges ahead and loves the opportunity to develop things from “scratch” towards an attractive and successful customer-centered business.

You will join an early-stage startup team from pilot phase towards a well-established and clearly positioned business. With your deep technical skill in software engineering, you are playing an integral role in driving the technical solution forward.

- You are designing and delivering the frontends for a solution which serves as foundation for connected and decarbonized energy solutions in the German market
- With your expertise in technical solutions, you advise the team on the optimal feasibility of implementation
- You will work closely with the backend development to ensure that the system APIs are used correctly
- You write high-quality, self-documenting code using test-driven development methods
- You are familiar with testing and debugging processes (including unit and UI tests).
- You have a strong affinity for open-source platforms
- You help the team grow – the role is designed to support ongoing hiring and to grow into team lead role

Your skills

- Proven track record in development of modern JS applications like React
- HTML / CSS and responsive design experience, experience with CSS processors
- Familiar with consuming REST and GraphQL APIs, able to write effective unit, integration and end-user automation tests
- 5 years+ industry experience in a comparable environment is a plus
- Ideally already experience in a scaling company with high performance teams
- Willingness to grow into project and team management area
- Team player with clear focus on your responsibilities
- Excellent problem-solving and analytical skills, and forward thinking
- Strong and positive communication skills
- Fluent English is a must – fluent German is a plus

We offer you

- Speed, agility and space to grow - personal and career-wise
- Our vision to accelerate the transition to clean energy for everyone
- The opportunity to play a key role in a lean, customer-driven business and tech development
- A hybrid work model

Do you want to join our mission and get to know the ison team? Then let's get in touch - we look forward to hearing from you!
